Alternative Fuel Corridors in SC

AFV Corridor Designations

Lead Agency	EV Corridor	CNG Corridor	LPG Corridor
SC Energy Office	<p>I-85: From GA border to NC border.</p> <p>I-77: From NC border to the end of I-77 in Columbia.</p> <p>I-26: From Columbia to Orangeburg and from North Charleston to Charleston.</p>	<p>I-85: From the NC border to the GA border.</p>	<p>I-26: From Spartanburg, SC to Charleston, SC</p> <p>I-20: From Camden, SC to GA border.</p>

The Process

March 14, 2017

SCLK02 - Traffic Engineering
 Alan Ayres-Robles, Director of Traffic Engineering
 255 Park Street, Room 302
 Columbia, SC 29202

To Whom It May Concern:

The Palmetto Clean Fuels (PCF) coalition, as administered by the South Carolina Office of Regulatory Support, Energy Office, is forwarding this request to the Director of Traffic Engineering in response to guidance released by the Federal Highway Administration (FHWA) on a plan for designated alternative fuel corridors.

PCF's Clean Fuels designated Department of Energy's Clean Cities Coalition (C3) is a voluntary partnership of alternative fuel manufacturers, distributors, and supporters who will only work together to promote the use of alternative fuels within the State.

In August of 2016, PCF submitted a request for a call for estimates of alternative fuel corridors (SCLK02) on 8/22/2016 with SC Department of Transportation (SCTD) approval.

On November 3, 2016, the Energy Office received a response from the FHWA in which a list of PCF member sites were being designated as Alternative Fuel Corridors. Corridor sites were designated as Signage Ready Alternative Fuel Corridors and Signage Pending Alternative Fuel Corridors. The table below provides the information on the status of the Signage Ready designated corridors. My information can be found on the FHWA website.

https://www.fhwa.dot.gov/infocenter/signage/alternative_fuel_corridors.cfm

Requested that signs be placed per FHWA specifications along designated "signage-ready" corridors

Submit Signage Request

Receive Approval/ Recognition of Request

Approval of request received and process of implementation begins

Received a detailed cost estimate

Cost Estimate

Next Steps?
