

ELECTRIC VEHICLE INFRASTRUCTURE

Louisiana's role in the Volkswagen Settlement

Presented by: Vivian H. Aucoin

Louisiana Department of Environmental Quality

15% ALLOWED FOR INFRASTRUCTURE

DC FAST CHARGING CORRIDOR

LDEQ is working with Louisiana Clean Fuel partners to engage stakeholders to join in the Master Plan Process. The Master Plan will facilitate local acceptance and demand for EVSE charging infrastructure along critical corridors

“ BY 1900, ELECTRIC CARS WERE AT THEIR HEYDAY, ACCOUNTING FOR AROUND A THIRD OF ALL VEHICLES ON THE ROAD. DURING THE NEXT 10 YEARS, THEY CONTINUED TO SHOW STRONG SALES.” BY 1912, THERE WERE 38,843 ON US ROADS. ”

JAKE RICHARDSON, FEBRUARY 25, 2018
