

The Port of New York & New Jersey

*A partnership between two states
A premier gateway to the world*

Port Authority of New York and New Jersey Port District

Port Performance Task Force (PPTF)

Port of New York and New Jersey Clean Air Strategy

- Voluntary program to decrease air pollutants in the Port District via all-encompassing improvements to mobile sources, equipment, and facilities, all while maintaining operational efficiency and effectiveness.
 - Reduce impacts on health and the environment
 - Reduce contribution to greenhouse gas emissions
 - Multiple actions underway to “green” rail, cargo handling equipment, vessels, trucks, and other assets
- In 2014, we reported an average decrease 41.5% reduction in criteria air pollutants and 37.3% all pollutants, despite 13% cargo increase 06-14
