  - Interstate exit signage
  - [Manual on Uniform Traffic Control Devices](#)
  - Other Potential Opportunities

I-80 MID-AMERICA  
ALTERNATIVE FUEL  
CORRIDOR

**A greener way across the USA.**

- DOT
  - Accommodating motorists
  - Engaged in autonomous vehicle research
  
- Utilities
  - Differing approaches/ priorities
  
- Retail developers
  - Coordination through cities
  
- Convenience stores & truck stops
  - Capture in-store sales (food, etc.)
  
- Toll-Roads, Ports, National Parks, Travel Bureau's, MPO's

- Survey of property owners and businesses helped establish new set of stakeholders.
- Public is very supportive of EV corridor work.
- Need to look at electricity factors, load capacity and rates, at each DCFC potential site.
- Electrify America site selection.
- Speaking a common language, is a common barrier.
- Prepare for outreach on ALL alternative fuel types over longer term.
