Leveraging Partnerships & Building Awareness

Introduction

WELCOME

Maryland Local Government Electric Vehicle Infrastructure Survey

The Maryland Department of Transportation (MDOT), in coordination with the Maryland Electric Vehicle Infrastructure Council (EVIC), is gathering input from counties and municipalities on their experiences with Electric Vehicles (EVs), Electric Vehicle Supply Equipment (EVSE), and EV Chargers. Please provide us your insights on EVSE within your region, including known locations of future EVSE and potential locations of EVSE, so that we can better coordinate EV efforts within the State.
