

Northeast/Mid-Atlantic AFC Convening Panel, July 2019

“Filling the Gap: Strategy, Technology, and Partnership for Infrastructure Development”

Marcy Bauer, EVgo Director of Program Operations

EVgo: America's Largest Public Fast Charging Network

Nation's Largest and Most Reliable Public Fast Charging Network

- More than 1,200 Fast Chargers in 34 states, 66 metros (50kW & 150kW)
- 125,000 customers, 75MM electric vehicle miles powered in 2018 (*nearly doubled from 2017*)
- Open network, no membership = no problem (*start a session with RFID card, credit card, mobile app, remote via call center, or Autocharge**)
- More than 100 EVgo DCFCs added in 1st 90 days of 2019
- 1st US public network to contract for 100% renewable energy
- Executing Virginia's VW Settlement Appendix D contract for statewide charging network deployment

* Where applicable

What EV Drivers Need From Charging Infrastructure

RELIABILITY

Meticulously maintained chargers
Multiple chargers per site
Simple, standard pricing

**Best Operating
Record In The
Industry**

SPEED

Timed to coincide with short
errands in metro areas, 'gas station
model' along highway corridors

**1st in High Power
Testing and
Deployment**

CONVENIENCE

Best retail locations
Best parking lots/garages
Wide accessibility
Low queuing
No membership requirement
Multiple payment options
Clear signage

**Highest Consumer
Scores on Plugshare
of Any US Public
Charging Network**

**90+ million Americans
live w/in 10 minutes
of EVgo charger**

Autocharge

Expanding EV Fast Charging

Barriers

- Permitting
- Utility interconnect
- Operational expenses (utility rates)
- Low near-term utilization (chicken and egg)

Opportunities

- VW ‘Dieselgate’ Funds – Best Practices
 - Prioritize investment in high use areas 
 - Dedicate funding to DCFC 
 - 50kW base requirement to extend reach 
 - Site upgrade and OpEx eligible expenses 
 - Streamline funding through energy & environmental agencies 
 - Continuous funding application windows 
 - Site host commitment letters 
- Fleet Electrification
- Rideshare Electrification
